EXPERIENCE

Frontend Developer

GatePass, Mar 2021 - Present

- Work closely with the design team, product management, and development teams to create elegant, usable, responsive and interactive interfaces across multiple devices.
- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement.

Frontend Developer

KloudHQ, Jul 2020 - Feb 2021

- Designed web applications according to client briefs and modified designs to meet changes in client specifications.
- Built stable and maintainable codebases using React, modern CSS techniques and JavaScript libraries.
- Worked in team environments that used Agile methodologies and tools.
